PRESSURE SEWER

In locations and/or applications where Gravity Sewer is not available, additional Pressure Sewer fees apply. Pressure Sewer fees include installation of the grinder pump and control panel.

Instalation does NOT include:

1.) Electrical service and power disconnect. The homeowner shall hire a licensed electrician to connect power supply to the pump control panel.
2.) Abandonment of existing septic tank, if applicable. Homeowner shall abandon septic in accordance with Mississippi Department of Health regulations.
3.) Connection of sewer service to the pump station. The homeowner shall hire a licensed contractor to make the connection.

The price stated herein shall include a maximum of 200 LF of service line between the pump station and discharge point and/or lot or parcel line. Additional service line may be installed for additional cost of $4.00 per LF, if required.
